THE HYPER-REALISTIC® MOULAGE KIT (HRMK)

The Hyper-Realistic® Moulage Kit provides the capabilities of a professional Special Effects Make-up Artist in one highly versatile product. The HRMK inserts hyper-realism into any training revolution, increasing the stress inoculation factor for medical and non-medical professionals; greatly decreases the costs when implementing Hyper-Realistic® casualties into training scenarios because everything is completely reusable.

The HRMK contains:

- All required supplies needed for wound application and removal
- The ability to produce up to 12.5 gallons of Artificial Blood
- Step by step instructions for application, removal, cleaning, reusing, and storing of wounds
- Reusable and customizable injury reference cards to increase the realism for casualties as well as simplify wound description and application for non medical personnel
- Removable "pages" of wound patterns for ease of use and accountability

Customizable Wound Patterns:

- Superficial and deep lacerations
- Closed and compound fractures
- Impaled objects and shrapnel wounds
- Partial and full thickness burns
- Partial upper amputations
- Abdominal eviscerations
- Flail chest and open thoracic injuries
- Extraorbital avulsions with or without ocular injury
- Maxiofacial trauma with and without dental injuries
- Chemical, Biological, Radiological and Nuclear injuries
- Entrance and exit gunshot wounds from multiple calibers - 5.56, 7.62, and 9mm

All wounds can be applied on any anatomical location to create the desired effect

Unique Features:

- Complete re-usability of wounds
- All supplies stored in one portable bag for ease of use and convenience

THE HYPER-REALISTIC® MOULAGE KIT (HRMK)

A1 STRATEGIC OPERATIONS

HYPER-REALISTIC TACTICAL TRAINING THE NEXT GENERATION

Wound Description
Compound Ulnar fracture
Deep forearm laceration

Signs & Symptoms
Severe pain
Signs of shock

(Front)

Injury Reference Card for each Wound

(Back)

Eye Avulsion

Compound Humerous Fracture
